

REMANUFACTURING & REPACKAGING

Measurable Outcomes

Comprehensive Offerings You Can Track

Scorecard for Success

Our remanufacturing and repackaging services are conducted valuing your metrics as our own. We operate with speed, efficiency, client ease and low cost - aligning our internal scorecard to yours.

Experience at the Core

We have been conducting remanufacturing services for major carriers and OEMs since 2007, consistently delivering low cost, quick turnaround and seamless setup/transition of complex projects..

Complete Efficiency

We conduct screening, framework update, repair, cleaning and refurbishing to like-new condition based on the OEM specifications and backup with Zurich's warranty and certification. Our proprietary and customizable systems and automated testing capabilities facilitate the screening process for rapid screen and test.
